

Eligibility Requirements: For post-doctoral researchers from Australia, Belgium, Canada, Finland, France, Germany, Italy, the Netherlands, New Zealand, Sweden, the United Kingdom, and the United States of America.

Number of Awards: Approximately 130 (in 1989).

Duration of Awards: 12 months.

Amount of Awards: The Fellowship includes round-trip airfare and a monthly stipend of Y270,000 with an additional settling-in allowance. In addition, the Ministry of Education, Science and Culture (Monbusho) may provide a special research grant up to Y1,200,000 depending on the applications of the fellows.

Application Deadlines: None.

Application Requirements: The candidates for the Post-doctoral Researcher Fellowships are selected in two ways: 1) through recommendations of relevant academic organizations in their home countries, with the prior consent of Japanese host scientists; and 2) the JSPS selects applications submitted from Japanese researchers who wish to host foreign research fellows in Japan. For more additional information, contact the Exchange of Persons, Division, JSPS.

S.C. Johnson & Son, Inc.

"We Care For America" Grant Review Committee
The World Wildlife Fund & The Conservation Foundation
1250 Twenty-Fourth Street, NW.
Washington, DC 20037
USA

Phone: (202) 778-9645

Fax: (202) 293-9345

Title of Program: "We Care For America" Research Grants

Description of Program: The S.C. Johnson & Son "We Care For America" program awards a limited number of non-renewable grants for research leading to innovative technological approaches to promote cleaner air, cleaner water, and a cleaner earth. These approaches should be practical in nature and capable of replication by individuals, corporations, and municipalities. There are no specific examples of potential approaches related to international forestry and natural resources, but proposals can be directed to these two fields if they meet the eligibility requirements. These awards are new and are provided through the 1991 and 1992 calendar years. The award's future long-term funding is uncertain until an evaluation is by made S.C. Johnson and Son at the end of two years.

Eligibility Requirements: The grants are awarded to 501 (c) (3) tax-exempt and for-profit organizations. The proposals

should be practical and easily replicable. They must be specifically for research leading to innovative technological approaches to promote cleaner air, cleaner water, and a cleaner earth.

Number of Awards: Depends on the amount of the awards that are approved.

Duration of Awards: 1 year.

Amount of Awards: The maximum amount of an individual grant is \$50,000. The donations by S.C. Johnson for these research grants total \$500,000.

Application Deadlines: Contact the "We Care for America" Grant Review Committee.

Application Requirements: The application process has three steps: 1) a letter of inquiry, 2) a formal application, and 3) follow-up reports.

1) A letter of inquiry - should not exceed five double-spaced, typewritten pages and should include: the proposed research project, the interested organization, and the research project budgets. If the Committee approves the proposed project, a formal application will be requested.

2) A formal application - must include 12 double-spaced, typewritten copies of the following materials: 1) a cover page; 2) an executive summary of the proposed research, not to exceed two pages; 3) a written proposal; 4) a copy of the IRS determination letter, showing 501 (c) (3) tax-exempt status; 5) a list of other potential funding organizations that also have pending proposals for this research project; 6) examples of past accomplishments; 7) descriptions of any special qualifications of key staff; and 8) letters of support from qualified individuals who can assess the merits of the proposal.

3) Follow-up reports - are submitted by the applicant to the Committee after six months. The reports include the progress of each funded research project and a financial account of the project's activities. A final report is due at the end of the project.

Telex: 325660

Description of Program: The JSPS provides several kinds of fellowships to Japanese scientists to enable them to engage in research activities in foreign countries. The activities of JSPS under these fellowships and grants are the following:

A. Post-doctoral Fellowships for Research Abroad - fellowships are awarded to Japanese post-doctoral researchers for research at foreign universities or research institutions for a duration of two years. The fellowship covers travel expenses, maintenance allowances, and a certain amount of research grants. Approximately 33 fellowships (1989) are awarded each year.

B. Fellowships for Study at the Zoological Station at Naples - the JSPS grants fellowships to Japanese marine biologists for cooperative research at the Zoological Station at Naples, Italy. About two fellowships are granted each year.

C. Fellowships for Study at the International Centre of Insect Physiology and Ecology - The JSPS has been extending its cooperation activities with the international Centre of Insect Physiology and Ecology (ICIPE) in Nairobi, Kenya by providing airfare and expenses for one research worker every year at the ICIPE. Contact the Exchange of Persons Division, JSPS, for current information on these three fellowship programs.

Title of Program: 4. JSPS Fellowships for Foreign Scientists in General

Description of Program: The JSPS Fellowships for Foreign Scientists in General encourages Japanese scientists to invite foreign colleagues to Japan for cooperative research and other academic purposes. There are two types of fellowships: 1) Short-term - granted to eminent scientists, such as Nobel laureates, and other senior scientists of outstanding achievements to visit Japan; and 2) Long-term - granted to foreign researchers who wish to conduct research jointly with, or under the supervision of, Japanese scientists at universities or research institutions.

Purpose of Program: To facilitate cooperative research between visiting foreign scientists and host Japanese scientists.

Eligibility Requirements: Short-term candidates are eminent or senior scientists; long-term candidates are researchers who want to conduct joint research with Japanese scientists.

Number of Awards: Depends on the fellowship program: The short-term Scientist Fellowships number approximately 210 (1989); the long-term about 60 (also 1989).

Duration of Awards: 3 months or less for the short-term Scientist Fellowships; 6 months to 1 year for the long-term awards.

Amount of Awards: The short-term Scientist Fellowships provides round-trip airfare and maintenance allowances of Y18,000 (Yen) per day, with additional allowances for travel within Japan; the long-term provides round-trip airfare and a monthly stipend of Y240,000 - Y300,000 with additional allowances for housing and travel within Japan.

Application Deadlines: May and September for both fellowships; those selected are invited to visit Japan during the following fiscal year, which begins in April.

Application Requirements: The applications for both Foreign Scientist Fellowships are submitted to the JSPS by Japanese scientists who wish to host a foreign scientist in Japan. Direct applications by foreign scientists or through diplomatic channels are not acceptable.

Title of Program: 5. JSPS International Joint Research Projects

Description of Program: The JSPS supports Japanese scientists who are engaged in joint research projects with foreign scientists by providing them with necessary travel and research expenses.

Eligibility Requirements: Japanese scientists engaged in joint research projects with foreign scientists.

Number of Awards: Approximately 48 projects.

Duration of Awards: Normally 2 years.

Amount of Awards: Necessary travel and research expenses.

Application Deadlines: May.

Application Requirements: Contact the Exchange of Persons Division, JSPS, for current information and application procedures.

Title of Program: 6. JSPS International Research Workshops

Description of Program: The JSPS provides funds to partially support the organization of international workshops in Japan that include about 80 participants; it also provides travel expenses of foreign participants who have important roles in the workshops. The JSPS supports approximately 18 workshops (1989 levels) in the humanities and the social and natural sciences.

Title of Program: 7. JSPS Postdoctoral Fellowship for Foreign Researchers

Description of Program: Fellowships are awarded to post-doctoral researchers to enable them to conduct research at research institutions in Japan.

Purpose of Program: To provide fellowships to facilitate cooperative research between visiting foreign scientists and host Japanese scientists.

Application Deadlines: Proposals are due to the Director on December 15, March 15, June 15, and September 15; notification to grantees is in February, May, August, and November.

Application Requirements: There is no standard application form. Call or send a brief letter of inquiry to the Executive Director before submitting a full proposal. Proposals should include: 1) a cover letter with purpose of the program, amount and use of funds, and contact person; and 2) a funding proposal of no more than 10 pages with program goals and objectives, rationale and need, intended beneficiaries or participants, implementation strategy and timetable, detailed budget including other funding sources, experience and capability of the administrative organization, and criteria for program evaluation. For additional information, contact the Executive Director.

Title of Program: 1. JSPS Bilateral Exchange Programs with Foreign Academic Institutions

Description of Program: The JSPS administers a number of bilateral programs for scientific cooperation and exchange through memoranda of understanding (MOU) with 39 foreign academic institutions in 28 countries (1989). The mode of cooperation is primarily through exchange visits by senior and junior scientists. It may also include joint research activities and jointly sponsored seminars. In cooperation with Chinese and Korean counterparts, the Ph.D dissertation. (RONPAKU) programs are implemented with the aim of supporting a researcher who wants to earn a doctorate degree from a Japanese university.

Purpose of Program: To develop scientific understanding between Japan and the cooperating countries.

Eligibility Requirements: Eligibility depends on the memorandum of understanding between the cooperating countries and the JSPS.

Number of Awards: Approximately 230 Japanese and 380 foreign scientists (1989 levels) are exchanged. The JSPS also

co-sponsors about 58 research projects and 31 seminars and dispatches 286 Japanese scientists (1989) abroad for this program.

Duration of Awards: Depends on the MOUs between the cooperating countries and the JSPS.

Amount of Awards: Travel, maintenance, and other necessary expenses are substantially defrayed by the JSPS.

Application Deadlines: None.

Application Requirements: Applications for the Bilateral Exchange Programs are arranged between the JSPS and the counterpart institutions. Contact the Exchange of Persons Division, JSPS, for current application procedures.

Title of Program: 2. JSPS Cooperation Programs With Southeast Asian Countries

Description of Program: The activities of the Cooperation Programs With Southeast Asian Countries include: exchange of scientists, cooperative research, scientific seminars, and other related functions, such as the RONPAKU (Ph.D.) program. In this program, the JSPS has MOUs with 6 agencies in 5 countries. The cooperation programs cover all academic fields of the humanities and the social and natural sciences. A distinguishing feature of these bilateral programs is the "core university system"; here, core universities take leading roles for the priority activities as negotiated between the institutions.

Purpose of Program: To develop scientific understanding between Japan and the cooperating countries.

Eligibility Requirements: Eligibility depends on the memorandum of understanding between the cooperating countries and the JSPS.

Number of Awards: Approximately 400 Southeast Asian scientists and an equivalent number of Japanese scientists (1989) are exchanged.

Duration of Awards: Depends on the MOUs between the cooperating countries and the JSPS.

Amount of Awards: Travel, maintenance, and other necessary expenses are substantially defrayed by the JSPS.

Application Deadlines: None.

Application Requirements: Are arranged between the JSPS and the counterpart institutions. Contact the Exchange of Persons Division, JSPS, for current application procedures.

Title of Program: 3. JSPS Fellowships and Travel Grants to Japanese Scientists for Research Abroad

from ITTO's producing member countries. These activities will primarily include visits and short-term training in demonstration forests, factories, workshops and R&D institutions; and participation at seminars, conferences, and short-term courses;

2) ITTO grants to finance short-term technical assistance - to increase the advisory services and information exchange in producing countries; and

3) ITTO grants to finance the preparation of technical documents - to transfer relevant technology and technical information to develop the manpower in the forestry sector in producing countries.

There are three priority areas: 1) Forest Industry - more efficient processing of tropical timber and project development within the utilization field; 2) Economic Information and Market Intelligence - development of national statistics capability within the tropical-timber field; and 3) Reforestation and Forest Management - improvement of the sustainable management of natural tropical forests.

Purpose of Program: To assist the development of wood-based industries in ITTO producing member countries based on the sustainable management and utilization of tropical forest resources.

Eligibility Requirements: Applicants who are nationals from any ITTO member country, either producer or consumer, namely: 1) Producers: Bolivia, Brazil, Cameroon, Colombia, Congo, Cote d'Ivoire, Ecuador, Gabon, Honduras, India, Indonesia, Liberia, Malaysia, Panamá, Papua New Guinea, Peru, Philippines, Thailand, Togo, Trinidad, and Tobago; and 2) Consumers: Australia, Austria, Belgium-Luxembourg, Canada, China, Denmark, Egypt, Finland, Germany, Greece, Ireland, Italy, Japan, Republic of Korea, Netherlands, Nepal, Norway, Portugal, Sweden, Switzerland, Spain, Union of Soviet Socialist Republics, United Kingdom of Great Britain and Northern Ireland, and United States of America.

Number of Awards: About 60 fellows each year.

Duration of Awards: Short-term; actual duration not listed.

Amount of Awards: The standard stipend and allowances given by the United Nations.

Application Deadlines: September and March.

Application Requirements: Applications must include a detailed description of the proposed activities and letters of acceptance from institutions that will participate in the proposed activities. Applicants must have adequate qualifications for the proposed activities; they must be able to understand, speak, read and write the language of the host country. Applicants must explain how the proposed activities will improve the sustainable management of tropical forests, the development of tropical timber industries, and the

expansion and maintenance of the tropical timber trade in these countries. For more information, contact the Program Manager, ITTO headquarters.

The Henry M. Jackson Foundation

The Program Officer
The Henry M. Jackson Foundation
1001 Fourth Avenue
Suite 3317
Seattle, WA 98154
USA

Phone: (206) 682-8565
Fax: (206) 682-8961

Title of Program: Grants in Environmental, Natural Resources, and Energy

Description of Program: The Foundation awards grants in four areas: the environment/natural resources/energy; education and advanced research in international affairs; public service; and human rights. In the environmental area, the Foundation encourages and supports initiatives in the preservation of the environment and the effective management of energy and natural resources. Most of the Foundation's efforts to conserve biological diversity are focused on the tropics, while the pollution and toxic initiatives are in the United States.

Purpose of Program: In the environment/natural resources/energy program area: to initiate and support programs which contribute to the process of policy formulation, train professionals for careers in environment and natural resources management, and enhance public awareness of environmental issues of national and international dimensions.

Eligibility Requirements: Private, nonprofit tax-exempt organizations certified under Section 501 (c) (3) of the U.S. Internal Revenue Code and public entities qualifying under Section 170 (c). The Foundation does not award grants to individuals. The Foundation will not fund unrestricted operating expenses or operating deficits; capital expenditures, except in certain circumstances; political campaigns; or efforts to influence legislation other than by making available the results of nonpartisan analysis and research.

Number of Awards: In the environment/natural resources/energy areas: variable; in 1989-90, for example, there were 5 awards.

Duration of Awards: Variable; depends on the proposed project.

Amount of Awards: Variable; in 1989-90, for example, grants ranged from \$13,000 to \$50,000.

ITT Corporation (Fulbright-type Grants)

ITT Program Manager
c/o U.S. Student Programs Division
Institute of International Education
809 United Nations Plaza
New York, NY 10017-3580
USA

Phone: (212) 883-8266
Fax: (212) 984-5330

Title of Program: ITT International Fellowships

Description of Program: The ITT International Fellowships are processed through the Institute of International Education (IIE) as are the Fulbright Grants; they are, however, awarded separately.

Eligibility Requirements: U.S. citizens. The ITT Fellowships follow similar eligibility requirements for the Fulbright Grants listed under the IIE. Four slight differences from the Fulbright Grants are: 1) Preference is given to single, graduating seniors; 2) The awards are based upon academic or artistic excellence; 3) Proficiency in the language of the country of study must be sufficient to implement the proposed study; and 4) Fellowships are awarded from the following countries: Australia, Belgium, Chile, Peoples Republic of China; Egypt; France, Federal Republic of Germany, Italy Mexico, Spain. Applications will be considered from well-qualified students in all fields.

Number of Awards: Approximately 10 per year.

Duration of Awards: About 9 months.

Amount of Awards: Depends on the country of the proposed research. The ITT Fellowships provide support for a maintenance allowance based on cost of living in the host country; tuition and books; an allowance for international travel; and health and accident insurance. No financial allowances are provided for dependents.

Application Deadlines: Contact the ITT Program Manager at IIE.

Application Requirements: At-large applicants (applicants who are not enrolled at institutions when they submit their applications) should contact the U.S. Student Programs Division, IIE, at the closest regional office for current application procedures. Enrolled students should contact the Fulbright Program Adviser on their campus.

IIE Office Addresses:

1) New York Offices: At-large students from Alabama, Delaware, District of Columbia, Florida, Georgia, Maryland, New York, New Jersey, North Carolina,

Pennsylvania, Puerto Rico, South Carolina, Tennessee, Virginia, West Virginia, and New England should contact the IIE office in New York listed above.

2) Midwest Regional Office: Serving: Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, North Dakota, Ohio, South Dakota, and Wisconsin.

Japan

Phone: (81-045) 671 - 7045
Fax: (81-045) 671 - 7007
Telex: 3822480 ITTOJ

Title of Program: ITTO Fellowship and Small Grants Program

Description of Program: There are three types of ITTO fellowships and grants:

1) ITTO fellowships to support short-term activities - to increase technological knowledge and research and development (R & D) expertise of technical personnel

Description of Program: The Young Canadian Researchers Award is a competitive award available to graduate students who intend to conduct their thesis research in a developing country. Such research must be an integral component of the requirements to fulfill a master's thesis or doctoral dissertation degree program. The eligible fields of study related to international forestry and natural resources include: agriculture, food, and nutrition sciences: including forestry, fisheries, agricultural economics, natural resources management, crop production systems, animal production systems; post-production systems, and nutrition.

Purpose of Program: To develop the research capacity in Canada that is responsive to Third World priorities. The Awards supports Canadians who undertake their field research in Latin America, Africa, or Asia.

Eligibility Requirements: There are seven requirements: 1) Canadian citizenship or permanent residency status; 2) evidence of good standing in a Canadian University; 3) undertaking thesis research in a developing country in one of the eligible fields of study; 4) relevant academic qualifications; 5) thesis proposal approved by an appropriate academic committee; 6) evidence of affiliation with an institution or organization in the developing country where the research will take place; and 7) for master's students only: evidence that coursework will be complete and the comprehensive examination passed by the time of the award tenure.

Number of Awards: Variable, but approximately 20 to 22 per year.

Duration of Awards: Corresponds to the period of field research in the developing country. In general, this will be for a minimum of 3 months to a maximum of 12 months. Doctoral students whose field research requires more than 12 months may be considered for an extension for a maximum period of 24 months.

Amount of Awards: Cover justifiable field research expenses to a maximum of \$20,000 per year. For doctoral students whose proposed field research will require more than 12 months in the developing country, the total value cannot exceed \$40,000.

Application Deadlines: None; applications are accepted throughout the year.

Application Requirements: Application forms are available from the Fellowships and Awards Division, IDRC, or Deans of Research and Graduate Students in Canadian universities.

International Society of Arboriculture (ISA)

Shade Tree Laboratories
University of Massachusetts
Amherst, MA 01003 USA

Phone: (413) 545-2402
Fax: (413) 545-2532

Title of Program: Grants for Shade Tree Research and Educational Projects

Description of Program: Each year since 1975, the International Society of Arboriculture has awarded grants to encourage scientific and educational research on shade trees. The research should not be limited to a restricted geographical area; projects that address local problems should present models that solve universal problems and help the daily work of arborists. The program's sole focus is shade trees. Although most of the grants are made in support of research, the ISA considers funding in other areas, such as educational projects in arboriculture.

Purpose of Program: To assist arborists in their daily work of planting, care, and removal of shade and ornamental trees.

Eligibility Requirements: Citizenship is unrestricted. There is no restriction by religion, race, sex, age, nationality or residence of the applicant. Individuals self-supported or privately or publicly employed are eligible. In addition, ISA will consider applications from any institution, organization, irrespective of status. The sole criterion for judging a proposal is the potential benefit to the arborist.

Number of Awards: Approximately 10 grants per year.

Amount of Awards: About \$2,000 per year. The grants are not expected to cover all research costs, but to aid, stimulate, and encourage scientific studies of shade trees. The grants will support equipment, but will not pay administrative overhead.

Application Deadlines: December 1; proposals received after December 1 are considered the following year. All applicants are notified in March or April.

Application Requirements: There is no standard application form. Application letters should be written in English and should describe the proposed project and its benefits. It must not exceed two pages; only the first two pages of any application will be sent to the review committee. Send only one copy. The following information should be included: 1) name, address, and telephone number of one Principal Investigator (PI); 2) institution(s) and date(s) of PI's college and graduate degree(s); 3) title of the project; 4) purpose of the project; 5) research plan; 6) intended use of the grant money; 7) names of others involved in the research; 8) citations to two relevant publications by the researcher; 9) how the results will help arborists do daily tree-care work; 10) the cost of the project; and 11) the length of the project. Recipients of the ISA grants will be asked to publish their results in ISA's "Journal of Arboriculture". For more information, contact the Shade Tree Laboratory.

International Council for Research in Agroforestry (ICRAF)

The Director
Training and Information Division
International Council for Research in Agroforestry
Off Limuru Road, P.O. Box 30677
Nairobi
Kenya

Phone: (254-2) 521450
Fax: (254)-2-521001
Telex: 22048 E-mail: 157:CGI236

Title of Program: ICRAF International Training Course on Agroforestry Research for Development

Description of Program: There are four modules of this training course:

Module I: A Conceptual and Technical Background of Agroforestry;
Module II: Diagnostic and Design Methodology;
Module III: Experimental Design Methodology; and
Module IV: Methods applied in the evaluation of agroforestry

Purpose of Program: To strengthen the capacity of research scientists in developing countries to formulate and implement agroforestry research projects related to appropriate technology.

Eligibility Requirements: Holders of a degree, or equivalent qualifications in agriculture, forestry, livestock sciences, economics, or a related discipline. Three years post-qualification work experience is also desirable.

Number of Awards: 40 per year.

Duration of Awards: 3 weeks.

Amount of Awards: The sponsorship covers tuition, the cost of field trips, accommodations, and a modest allowance for food and incidentals during the course. It also includes round-trip airfare.

Application Deadlines: Every December 1991-1995.

Application Requirements: Applications must reach ICRAF by 15th January. Selected candidates are contacted by ICRAF before 15th February. Contact the Director, Training and Information Division, for the current application procedures.

International Development Research Centre (IDRC)

Fellowships and Awards Division
International Development Research Centre
Box 8500
Ottawa, Ontario
K1G 3H9
Canada

Phone: (613) 236-6163
Fax: (613) 238-7230

Title of Program: 1. John G. Bene Award in Social Forestry

Description of Program: The estate of the late John G. Bene offers an endowment that provides a postgraduate fellowship in the field of social forestry. The study and research undertaken with the assistance of this Fellowship should focus on the relationship of forest resources to the social, economic, and environmental welfare of people, especially the less privileged people in developing countries.

Purpose of Program: To provide assistance to Canadian students in pursuing their graduate degrees in social forestry. The award must be used at least in part to help fund their research in a developing country.

Eligibility Requirements: Canadian citizens registered in a Canadian university at the master's or doctoral level; their academic background must combine the study of tree science (forestry or agroforestry) with social science (anthropology, sociology, or development economics). Students from interdisciplinary programs, e.g., environmental studies, may be included, provided their programs contain the specified elements. The applicants must also be interested in social forestry from an international development perspective and must intend to conduct at least part of their thesis research in a developing country.

Number of Awards: 2 to 3 per year.

Duration of Awards: 1 year. May be renewable for up to 2 additional years at the discretion of the Selection Committee.

Amount of Awards: \$7,000 per year.

Application Deadlines: January 15. The announcement of the award recipients is in April. Tenure is to be undertaken by March 1 of the following year.

Application Requirements: The application process is relatively simple. The Decision of the Selection Committee is final. Contact the Fellowships and Awards Division, IDRC, for application forms and current application procedures.

Title of Program: 2. Young Canadian Researchers Awards

Number of Awards: 15 each year.

Duration of Awards: Maximum of 2 years.

Amount of Awards: Maximum of \$30,000 for tuition, stipend, health insurance, and air travel.

Application Deadlines: February 15 for activities within the period between June 1 and the following May 31.

Application Requirements: Proposals should offer practical information for development problem-solving and policy-making, address organizational and community-level dimensions, and stress original research or field work rather than reliance on secondary data. All proposals should contain clear concepts, important objectives, and realistic time schedules. For more information, contact the IAF Fellowship Office.

Title of Program: 4. The Master's Fellowship Program

Description of Program: The Master's Fellowships support master's-level candidates of any citizenship enrolled in United States universities to conduct field research in Latin America or the Caribbean on grassroots-development topics.

Purpose of Program: To generate information for development problem-solving while building a community of development scholars throughout the Americas.

Eligibility Requirements: Citizenship is unrestricted. Applicants must be enrolled at a master's-level or equivalent program at a United States university to conduct field research in Latin America or the Caribbean on grassroots development topics. Candidates must write and speak the local languages and establish a formal affiliation with an appropriate local institution. Pre-dissertation field research proposals by doctoral-level candidates are also eligible.

Number of Awards: 15 each year.

Duration of Awards: Maximum of 6 months.

Amount of Awards: Supports budget shortages for tuition, stipend, health insurance, and air travel.

Application Deadlines: March for activities initiated within the period May 1 and the following April 30.

Application Requirements: Proposals should offer practical information for development problem-solving and policy-making, address organizational and community-level dimensions, and stress original research or field work rather than reliance on secondary data. All proposals should contain clear concepts, important objectives, and realistic time schedules. For more information, contact the IAF Fellowship Office.

International Council for Bird Preservation (ICBP) Consejo Internacional Para La Preservation De Las Aves (CIPA)

Program Officer
International Council for Bird Preservation
c/o World Wildlife Fund
1250 24th Street, NW
Washington, DC 20037
USA

Phone: (202) 293-4800, (202) 778-9649
Fax: (202) 293-9211

Title of Program: The Pan American Continental Section
(PACS) Small Grants Program

Description of Program: The Pan American Section (PACS) of ICBP offers small grants for avian conservation projects in Mexico, Central and South America, and the Caribbean. Project proposals that are considered for funding include: research, habitat protection and management, and public education. All projects, however, must have a clear conservation component.

Purpose of Program: To provide funds for avian conservation projects in Mexico, Central and South America, and in the Caribbean.

Eligibility Requirements: Citizenship is unrestricted.

Amount of Awards: Although there is no limit to the size of the grant that may be requested, this is a small grants program; grants in 1987, for example, ranged between \$100 to \$5,000.

Application Deadlines: February 1 for the May consideration; September 1 for the December consideration.

Application Requirements: Five criteria for project proposals are: 1) a maximum of seven pages with four sections: Project Summary, Project Description, Project Implementation, and References; 2) clear conservation objectives; 3) detailed budgets; and 4) letters of support or project reviews. Killing or collection of avian specimens is prohibited. Applicants should contact the Program Officer, ICBP-PACS, for information on the current proposal procedure. Three copies (if possible) of the proposal should be sent to the Pan American Office at ICBP, at the following address:

Pan American Section - ICBP
FWD/NHB-378
National Museum of Natural History
10th & Constitution, NW
Washington, DC 20560

Rosslyn, VA 22209-0486
USA

Phone: (703) 841-3800
Fax: (703) 841-0973

Description of Program: The Inter-American Foundation (IAF) was established to channel development assistance to the poor of Latin America and the Caribbean. The IAF offers four fellowship programs. The programs are open to candidates from the social sciences which attend to development issues, physical sciences, technical fields, and the professions. Applications are welcome from agronomy, agricultural economics, business, engineering, health sciences, law, medicine, natural resource management, and veterinary medicine. The four programs are:

Title of Program: 1. The Doctoral Fellowship Program

Description of Program: The Doctoral Fellowship assists doctoral students enrolled in United States universities to conduct dissertation field research in Latin America or the Caribbean on grassroots development topics.

Purpose of Program: To generate information for development problem-solving while building a community of development scholars throughout the Americas.

Eligibility Requirements: Citizens from Latin America, the Caribbean, or the U.S. Applicants must be enrolled in a doctoral program at a U.S. university; have completed all degree requirements; write and speak the local language; and have established a formal affiliation with an appropriate Latin American or Caribbean institution.

Number of Awards: 15 each year.

Duration of Awards: Maximum of 18 months.

Amount of Awards: Supports budget shortages for stipend, health insurance, air travel, and direct research expenses.

Application Deadlines: December 5 for activities initiated within the period between May 1 and the following April 30.

Application Requirements: Proposals should offer practical information for development problem-solving and policy-making, address organizational and community-level dimensions, and stress original research or field work rather than reliance on secondary data. All proposals should contain clear concepts, important objectives, and realistic time schedules. For more information, contact the IAF Fellowship Office.

Title of Program: 2. The Dante B. Fascell Inter-American Fellowship

Description of Program: The Fascell Fellowship supports grassroots development dissemination activities of distinguished Latin American and Caribbean leaders who have been instrumental in developing successful approaches to grassroots development.

Purpose of Program: To generate information for development problem-solving while building a community of development scholars throughout the Americas.

Eligibility Requirements: Applicants must be distinguished Latin American or Caribbean leaders. Candidates may apply directly or be nominated.

Number of Awards: 3 each year.

Duration of Awards: Maximum of 12 months.

Amount of Awards: Up to \$50,000 for 2 years.

Application Deadlines: A panel from IAF Fellowship Screening Committee reviews the final applications and recommends the selection to the Foundation. Awards are announced in December.

Application Requirements: Proposals should offer practical information for development problem-solving and policy-making, address organizational and community-level dimensions, and stress original research or field work rather than reliance on secondary data. All proposals should contain clear concepts, important objectives, and realistic time schedules. For more information, contact the IAF Fellowship Office.

Title of Program: 3. The Latin American and Caribbean (LAC) Fellowship Program

Description of Program: The LAC Fellowships support development professionals and researchers from Latin America and the Caribbean involved in grassroots development to pursue graduate-level studies in United States universities.

Purpose of Program: To generate information for development problem-solving while building a community of development scholars throughout the Americas.

Eligibility Requirements: Applicants must be development professionals and researchers from Latin America and the Caribbean whose work in development would benefit from advance academic experience in the United States. Applicants must be candidates for master's and doctoral degrees, or occasionally, persons pursuing non-degree programs in supervised research. Candidates must make their own arrangements for admission to a U.S. university. They must be nominated by their home institutions and are expected to return to them. All candidates are encouraged to consider U.S. universities with low tuition costs that offer high-quality graduate education.

3) **Factors Affecting Selection:** The selection of a candidate is made on the basis of the applicant's academic or professional record, language preparation, the feasibility of the proposed study project, and personal qualifications. Preference is given to veterans and to candidates who have not had prior opportunity for extended study abroad.

Number of Awards: Variable; for the 1990-91 competition, for example, 640 grants are available. Applicants have a better chance for a proposal to be selected in countries that have a less than 5 to 1 ratio of applicants to grants, since these countries are less competitive.

Duration of Awards: About 1 academic year.

Amount of Awards: Depends on the type of grant. The funding characteristics of each grant are:

1) **Fulbright Full Grants:** In most countries, round-trip transportation, language orientation courses (where appropriate), tuition, books, maintenance for one academic year in only one country, and limited health and accident insurance. Most of these benefits are payable in local currency.

2) **Fulbright Fixed Sum Grants:** This Grant provides a fixed sum payment in U.S. Dollars to the grantee. These grants are generally available to countries where there is no Fulbright Commission.

3) **Fulbright Travel-Only Grants:** These grants are available only for projects to Belgium, Finland, France, Germany, Italy, Korea, or New Zealand. They provide round-trip transportation, limited health and accident insurance, and the cost of an orientation course abroad, if applicable.

4) **Foreign and Private Grants:** Where awards do not cover the entire expenses of foreign study, e.g., international travel, candidates are expected to cover the additional costs from their own funds.

Application Deadlines: Enrolled students must submit applications to their campus Fulbright Program Advisers by the dates set by the advisers. At-large applicants, i.e., applicants who are not enrolled at institutions, must submit their applications to the New York office of IIE by October 31. Fulbright Program Advisers must also submit all applications from enrolled students to the New York office of IIE by October 31. Applicants are notified of their status in the preliminary stage of the competition by the end of January; final decisions are made the following June.

Application Requirements: The application procedures are detailed and lengthy. There is only one application form for the four Fulbright grants. Enrolled students must obtain application forms from the Fulbright Program Advisers on their campuses; at-large applicants may obtain application

forms from IIE at the closest regional office. The application procedures for the Fulbright grants require two phases: the application form and the proposed study. In preparing an application form, an applicant should: establish their eligibility; check the Individual Country Summaries in the brochure to be sure there are awards to the country of their interest; and apply for research in only one country. In preparing a proposed study an applicant should be aware that: 1) study plans in their major fields can be completed in only one country and in one academic year; 2) grantees must accept the institutional placements arranged for them at the affiliated institutions of higher learning in the host countries; 3) the projects must be feasible; 4) applicants should have adequate formal training and language skills for their proposed study; and 5) grantees are rarely permitted to enroll in American universities abroad.

IIE Office Addresses: At-large applicants should contact the U.S. Student Programs Division, IIE, at the closest regional office for current application procedures. Enrolled students should contact the Fulbright Program Adviser on their campus.

1) **New York Office:** At-large students from Alabama, Delaware, District of Columbia, Florida, Georgia, Maryland, New York, New Jersey, North Carolina, Pennsylvania, Puerto Rico, South Carolina, Tennessee, Virginia, West Virginia, and New England should contact the IIE office in New York listed above.

2) **Midwest Regional Office:** Serving: Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, North Dakota, Ohio, South Dakota, and Wisconsin.

401 N. Wabash Avenue, Suite 722
Chicago, IL 60611
tel. (312) 644-1400

3) **Rocky Mountain Regional Office:** Serving: Arizona, Colorado, Idaho, Kansas, Montana, Nebraska, New Mexico, Utah, and Wyoming.

700 Broadway, Suite 112
Denver, CO 80203
tel. (303) 837-0788

4) **Southern Regional Office:** Serving: Arkansas, Louisiana, Mississippi, Oklahoma, and Texas.

515 Post Oak Boulevard, Suite 150
Houston, TX 77027
tel. (713) 223-5454

5) **West Coast:** Serving: Alaska, California, Hawaii, Nevada, Oregon, and Washington.

41 Sutter Street, Suite 510
San Francisco, CA 94104
(415) 362-6520

Title of Program: 2. Environment Program Grants

Description of Program: The German Marshall Fund of the United States provides grants for activities in five program areas: International; U.S. and Germany; Comparative Domestic; Scholarly Support; and Media. Within The Comparative Domestic program area the Environment program focuses on the work of professionals involved in policy making and implementation. The Fund is interested in regulatory processes that are directed toward protection of critical soil, air, and water resources from acid deposition and non-point pollution; better management of toxic wastes; and conservation of nonrenewable energy resources.

Purpose of Program: To support the exchange of experience and policy approaches between Europe and the United States and to encourage productive cooperation among environmental experts and policy-makers.

Eligibility Requirements: Grants are given to organizations. The Fund gives preference to projects that: 1) address issues important both to nations in Europe and to the United States and involve persons or institutions both in Europe and in the U.S. - a primary requisite; 2) focus on national policy comparisons and transfer practitioner and policy maker experience; and 3) disseminate observations and implement new approaches. Proposals limited to analysis or research must address policy dissemination and/or implementation. In general, the Fund approves grants for binational workshops and conferences, transatlantic travel and study programs, policy-oriented analysis, public education and information, and short-term travel by individuals and groups. The Fund does not provide grants for building and operating funds, graduate and undergraduate education, the arts, medical or scientific research, and personal or local needs.

Number of Awards: Variable; in 1990, for example, a total of 161 grants were awarded for the 5 program areas.

Duration of Awards: Variable; contact the Program Officer for information.

Amount of Awards: Approximately \$16,000. The Board of Trustees considers proposals over \$25,000; proposals for smaller amounts are approved by the president of the Fund.

Application Deadlines: None; however, proposals for grants in excess of \$25,000 must be submitted 6 weeks before the meetings of the Board of Trustees in early October, mid-February, and late May.

Application Requirements: Send a brief letter of inquiry that includes: the purpose and policy importance of the project; its international dimensions and potential for cross-national transfer; plans for dissemination of project finds; other potential funding sources; qualifications of the applicant, i.e., resumes for individuals, or annual reports for institutions. For additional information, contact the Program Officer.

Institute of International Education (IIE) (Fulbright Grants)

New York, NY 10017-3580
USA

Phone: (212) 883-8266

Fax: (212) 984-5330

Title of Program: 1. Fulbright Full Grants

2. Fulbright Fixed Sum Grants

3. Fulbright Travel Only Grants

4. Foreign and Private Grants

Description of Program: The Fulbright Program is the primary source of funding in an annual appropriation made by the Congress to the U.S. Information Agency (USIA). The USIA administers the program with the assistance of binational educational commissions and foundations in more than 40 countries that have executive agreements with the United States to continue exchange programs, in 80 other countries that have U.S. Embassies, and with three major cooperating agencies in the United States.

Purpose of Program: To enable the Government of the United States to increase mutual understanding between the people of the United States and the people of other countries.

Eligibility Requirements: U.S. citizens regardless of race, sex, color, or national origin. There are three categories considered for grant awards: 1) eligibility, 2) ineligibility, and 3) factors affecting selection.

1) Eligibility: U.S. citizens. Applicants must have received the majority of their high school and their undergraduate college educations at educational institutions in the United States; relevant foreign study, however, may be eligible. A Bachelor's degree or equivalent, not a doctoral degree, is required. The ability to communicate effectively in the language of the host country is necessary. Applicants should be healthy.

2) Ineligibility: Applicants are ineligible for the Fulbright Grants if they: have already held a Fulbright Full Grant; are full-time permanent employees of the U.S. Information Agency; or are employees of any agency involved in administering the educational and cultural exchange programs of the USIA. These restrictions also apply to a spouse and dependent children. Applicants who have had extensive previous foreign experience are at a disadvantage, but are not necessarily disqualified from receiving the grants.

the project; a statement regarding other funding obtained or requested; and a copy of the latest annual report of the organization.

The Wallace Alexander Gerbode Foundation

Executive Director
The Wallace Alexander Gerbode Foundation
470 Columbus Avenue, Suite 209
San Francisco, CA 94133
USA

Phone: (415) 391-0911

Title of Program: The Wallace Alexander Gerbode Foundation Grants

Description of Program: The Foundations's general interests are mainly the Arts, Education, Environment, Health, and Urban Affairs. Although the programs have limited relevance to international forestry and natural resources, organizations in these fields have been awarded grants under the Environmental/Rural Affairs category.

Purpose of Program: The Wallace Alexander Gerbode Foundation is primarily interest in innovative, positive programs and projects directly impacting the residents of the state of Hawaii and the Alameda, Contra Costa, Marin, San Francisco, and San Mateo counties in California.

Eligibility Requirements: Only non-profit organizations in Hawaii and the five California counties listed above. The Foundation generally does not support: direct services, deficit budgets, general operating funds, building and equipment funds, general fund-raising campaigns, religious purposes, publications, scholarships, and grants to individuals.

Amount of Awards: Variable; in 1989, \$390,000 went to non-earthquake-related Environmental/Rural Affair grants.

Application Deadlines: Applications are accepted on a continuous basis.

Application Requirements: Send a letter of inquiry with a short description of the project, proposed budget, and a copy of the Internal Revenue Service letter confirming tax-exempt status to the Executive Director of the Foundation.

The German Marshall Fund of the United States

The Program Officer
The German Marshall Fund of the United States

Washington, DC 20036
USA

Phone: (202) 745-3950
Fax: (202) 265-1662
Telex: 197533

Title of Program: 1. Environmental Fellowship Program

Description of Program: The German Marshall Fund, in cooperation with the Institute for European Environmental Policy (IEEP), offers these short-term Fellowships for American environmentalists interested in selected European environmental policies. Fellows will visit 2 to 3 European countries to examine specific issues of environmental policy-making which is of direct relevance to their current work. The IEEP staff helps to tailor each program to individual interests, background, and experience. Note: a comparable program within the United States is available to European professional environmentalists.

Purpose of Program: To provide information, analysis, and legal expertise on environmental issues.

Eligibility Requirements: U.S. citizens. The Program is open to qualified individuals engaged full-time in environmentally oriented activities of either a public or other nonprofit institution or a private industry. Applicants must have at least three years of professional training and experience in one or more of the following fields: 1) Managing the Environment, 2) Open Space Conservation, and 3) Environmental Policy Communication and Education. In addition to English, they must have a good working knowledge of French, German, Italian, or Spanish. Preference is given to those individuals whose work is most likely to benefit from the European experience.

Number of Awards: Approximately 7 each year.

Duration of Awards: 3 to 8 weeks.

Amount of Awards: A weekly stipend of \$600; 1 transatlantic round-trip airfare; and a reasonable allowance for travel expenses within Europe. Applicants from industry will be requested to contribute 50 percent of their support.

Application Deadlines: May 15; announcement of awards is July 15. The Fellowship must be taken within 1 year from the date of the award announcement.

Application Requirements: Complete applications include one original and five copies of the following: a letter of four or less pages, a resume, three professional recommendations focusing on the applicant's qualifications and the potential impact of a European Fellowship on their work in the United States, and a letter from the applicant's employer endorsing the request. For additional information, contact the Program Officer, The German Marshall Fund of the United States.

1250 Twenty-fourth Street, NW
Washington, DC 20037
USA

Phone: (202) 778-9623
Fax: (202) 293-9211

Title of Program: Garden Club of America Scholarships in Tropical Botany

Description of Program: The Garden Club of America Scholarship awards are being implemented by the World Wildlife Fund with funding from the Garden Club of America. The scholarships are made on a competitive basis to graduate students conducting field work in the tropics as part of their doctoral dissertation research.

Purpose of Program: To provide graduate students with a means to assist with field work in tropical botany. It also encourages their long-term commitment to the conservation of tropical forests.

Eligibility Requirements: Applicants must be graduate students conducting field work in the tropics as part of their dissertation research. Although U.S. citizenship is not a requirement, students must be enrolled in a U.S. university.

Number of Awards: 2 per year.

Duration of Awards: 1 year.

Amount of Awards: \$5,000.

Application Deadlines: December 31 of each year. Recipients will be announced by March 15.

Application Requirements: There is no application form; however, the students must include the following: 1) a curriculum vitae; 2) evidence of foreign- language capability; 3) a two-page outline of the proposed research; 4) a letter stating future plans, long-term commitment to the conserva-

tion of tropical forests, and an intent to work in the area of tropical botany; and 5) a letter of recommendation from the advisor, which includes an evaluation of the student's progress. The acknowledgement of future work in the conservation of tropical forests adds merit to the application. Mail these items to the address above. For more information, contact the WWF/Garden Club of America, Scholarships in Tropical Botany, WWF.

General Service Foundation (GSF)

P.O. Box 4659
Boulder, CO 80306
USA

Phone: (303) 447-9541
Fax: (303) 447-0595

Title of Program: General Service Foundation Grants

Description of Program: The General Service Foundation has guidelines within three program areas for its contribution policy: International Peace; Population; and Resources. Of these program areas, The Resources guidelines are to relevant international forestry and natural resources. The Foundation also makes occasional contributions to exceptional proposals that are not strictly within the approved guidelines. The Foundation is interested in initiatives which develop integrative thinking and international perspectives.

Purpose of Program To address the world's basic long-term problems in International Peace, Population, and Resources.

Eligibility Requirements: Tax-exempt organizations under U.S. laws. The Foundation prefers projects and programs which give promise of significant contribution and which are new, innovative, demonstrational, and research oriented. It does not contribute to annual campaigns, operating budgets of established organizations, capital projects (physical plant, equipment, endowment), individuals, or to relief efforts.

Number of Awards: No specific number of awards; in 1989, for example, the Foundation made 18 contributions to organizations in the Resources program area.

Amount of Awards: Variable. In 1989, for example, the average award was \$22,500.

Application Deadlines: March 1 and September 1.

Application Requirements: Send a letter of inquiry describing the project to the Foundation. If the project fits the Foundation guidelines, and funding is available, an application form will be sent for a formal proposal. The following information is required: the name and address of the tax-exempt organization; a brief statement regarding the purpose for which funds will be used; a one or two page summary of

and natural resources management in the Soviet Union and Eastern Europe.

Purpose of Program: To grant and lend funds for efforts designed to produce significant advances on problems of worldwide importance. Priority is given to increasing agricultural productivity in developing countries and to developing and managing natural resources to support people over the long term.

Eligibility Requirements: Citizenship is unrestricted. Most of the Foundation's awards are given to organizations; few are given to individuals. They are limited to research, training, and other activities related to the Foundation's program interests and are subject to certain limitations and procedural requirements under the U.S. Internal Revenue Code. Foundation grants to individuals are awarded either through publicly announced competitions or on the basis of nominations from universities and other non-profit institutions. The Foundation does not award undergraduate scholarships or make grants for purely personal or local needs. The Foundation promotes pluralism and equal opportunity to end discrimination based on race, ethnicity, or gender. Grants are not normally made for routine operating costs of institutions, programs for which substantial support from government or other sources is readily available, or religious activities. Grants for the construction or maintenance of buildings are rare.

Number of Awards: Variable; depends on the Foundation's total program budget and the size of individual proposals in each program area.

Duration of Awards: Variable; both short- and long-term.

Amount of Awards: Variable, depends on the number and size of the individual proposals in each program area. The 1990-91 budget for the Rural Poverty and Resources program area, for example, is \$56.9 million.

Application Deadlines: Applications are considered throughout the year.

Application Requirements: There is no application form. A brief letter of inquiry is advisable to determine the Foundation's consideration of a proposal. If a proposal is acceptable, the Foundation requests a formal project proposal which includes: project objectives, program activities, qualifications of the persons involved with the project, a detailed budget, present means of support and status of applications to other funding sources, and legal and tax status. Grant requests in the United States should be sent to the New York Office above; requests in foreign countries should be directed to the nearest Foundation office below.

Fax: (396) 57973152, 5782710
Telex: 625852, 625853

Title of Program: 1. Andre Mayer FAO Research Fellowships

Description of Program: These Research Fellowships are offered in agriculture, fisheries, forestry, nutrition, agricultural economics and statistics.

Purpose of Program To conduct research projects in institutes selected by FAO, which are relevant to FAO member-states. Fellowships are offered to enable very experienced and highly qualified research workers to carry out individual research (original or concerned with the collection and analysis of existing data) as announced by FAO.

Eligibility Requirements: Open to all nationals of all FAO member-states.

Number of Awards: A maximum of 4 to 6 awards every 2 years.

Duration of Awards: A maximum of 24 months.

Amount of Awards: \$1,000 or more per month, plus training fees, report allowance, and transportation.

Application Requirements: Applications must be made to the FAO National Committee, c/o the Ministry of Agriculture or Foreign Affairs in the candidate's own country.

Title of Program: 2. Technical Assistance Fellowships

Description of Program: The FAO awards the Technical Assistance Fellowships within the framework of FAO-operated projects financed by the United Nations Development Program (UNDP) and projects jointly operated by FAO and other United Nations agencies, individual

governments, or foundations under funds in trust arrangements. The awards are made in accordance with criteria established by the project authorities and the nominating governments. These fellowships are awarded in the fields of agriculture, fisheries, forestry, nutrition, agricultural economics and statistics, rural institutions and services.

Eligibility Requirements: Open to nationals of countries in which FAO implements projects of technical assistance provided they are working or destined to work on these projects. Candidates must have adequate education and practical experience in the fellowship's field of study.

Number of Awards: Depends on the structure of the FAO project and the criteria set by the project authorities and the nominating governments.

Duration of Awards: 2 to 24 months.

Amount of Awards: Approximately \$1,000 or more per month. Training fees; book allowance; and costs of travel to, from, and within the country of study are included.

Application Deadlines: Depends on the schedule of the project.

Application Requirements: Applications must be made to the relevant government department that is working with the FAO project, in the candidate's own country. Individual requests are not considered.

The Ford Foundation

The Secretary
The Ford Foundation

Cable: FORDFOUND NEWYORK

Title of Program: Ford Foundation Grants

Description of Program: The Ford Foundation grants are made through a program division that encompasses six broad categories: Urban Poverty, Rural Poverty and Resources, Human Rights and Social Justice, Governance and Public Policy, Education and Culture, and International Affairs. The Rural Poverty and Resources and International Affairs categories are relevant to international forestry and natural resources; there are four main divisions: Rural Policy, Natural Resource Management, Agricultural Productivity, and Rural Economic Development and Employment Generation. In 1990, the Rural Poverty and Resources program expanded to include projects in environmental protection
